Team ID	SWTID-2026-1156
Project Name	EduGenie: Google Gemini Powered Learning Assistant
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Encounters a difficult derivation or problem in physics/math. - Captures snapshot of handwritten notes or circuit diagrams. - Uploads textbook chapters or syllabus PDF into EduGenie.	- Initiates multi-turn chat and asks for simplified explanations. - Listens to step-by-step AI voice breakdowns in real-time. - Highlights specific formulas on the digital whiteboard canvas.	- Takes adaptive diagnostic quizzes to check topic retention. - Revises concepts using auto-generated smart flashcards. - Exports summarized notes and formulas for rapid exam prep.
Touchpoint <i>What part of the service do they interact with?</i>	- Mobile Camera Scanner / File Upload Ingestion portal. - Document parsing & OCR preview window. - Subject & Exam syllabus selection menu.	- Google Gemini Multimodal Reasoning Engine & Chat UI. - Interactive Diagram & Canvas Annotation Workspace. - Bidirectional conversational Voice-Assistant module.	- Diagnostic Quiz Engine & Instant Grading Dashboard. - Visual Mind Map / Knowledge Graph Explorer. - Weekly Learning Progress & Weak-spot Analytics Tracker.
Customer Thought <i>What is the customer thinking?</i>	"Will this AI accurately read my messy handwriting?" "I don't have time to read through 400 pages for one answer."	"This breakdown is so intuitive, just like a 1-on-1 mentor!" "I can ask as many basic questions as I want without hesitation."	"I finally understand the root concept rather than memorizing." "I feel confident and ready to tackle tomorrow's examination."
Customer Feeling <i>What is the customer feeling?</i>	Anxious, overwhelmed, stressed about deadlines, and frustrated.	Relieved, engaged, supported, and motivated to learn.	Confident, empowered, academically satisfied, and calm.

Phase of Journey	Stage 1	Stage 2	Stage 3
Process Ownership <i>Who is in the lead on this?</i>	Frontend & UX Team: In charge of camera capture, OCR intake pipeline, and responsive mobile interface.	AI & LLM Engineering Team: Manages Gemini multimodal prompt engineering, context cache, and audio synthesis.	Assessment & Analytics Team: Leads dynamic quiz generation, spaced-repetition logic, and performance reports.
Opportunities <i>How can we improve this stage?</i>	• Add auto edge-detection & shadow removal for low-light camera photos. • Enable direct integration with Google Drive, Notion, and university LMS. • Provide quick multi-language syllabus topic mapping.	• Add interactive LaTeX formula renderer for complex mathematical equations. • Support regional voice audio queries (e.g., Tamil, Telugu, Hindi, English). • Introduce customizable tutor personas (e.g., Socratic mentor, concise reviewer).	• Export revision decks seamlessly to popular apps like Anki and Quizlet. • Provide AI predictive exam readiness scores with personalized study plans. • Implement peer collaboration study rooms with shared AI-curated summaries.

End-to-End Synergy: By aligning seamless user ingestion (Stage 1) with Gemini's high-precision multimodal reasoning (Stage 2) and proactive assessment loops (Stage 3), *EduGenie* delivers a comprehensive, personalized study companion that drives both academic confidence and performance.
