Problem-Solution Fit Canvas:

EduGenie addresses common student learning difficulties by providing an AI-powered assistant for quick explanations, personalized learning support, summaries, and study guidance using Google Gemini.

1. CUSTOMER SEGMENT(S) [CS] College students, school students, and self-learners who need quick and personalized academic support.	6. CUSTOMER LIMITATIONS [CL] Limited study time, difficulty understanding complex topics, limited access to personal tutoring, and varying learning levels.	5. AVAILABLE SOLUTIONS [AS] Search engines: large information source but may require filtering. Videos: useful but time-consuming. Traditional tutoring: personalized but may be costly.
2. PROBLEMS / PAINS + ITS FREQUENCY [PR] Students struggle to understand difficult concepts, find reliable explanations, revise quickly, and get immediate answers. These problems occur frequently during study and exam preparation.	9. PROBLEM ROOT / CAUSE [RC] One-size-fits-all learning resources, lack of immediate personalized guidance, information overload, and difficulty finding simple explanations suited to the learner.	7. BEHAVIOR + ITS INTENSITY [BE] Students repeatedly search online, watch tutorials, ask friends/teachers, and use study apps. The behavior is frequent, especially before tests and exams.
3. TRIGGERS TO ACT [TR] Upcoming exams, assignments, difficult lessons, doubts while studying, and the need for quick revision.	10. YOUR SOLUTION [SL] EduGenie is a Google Gemini powered learning assistant that gives simple explanations, answers questions, summarizes topics, supports personalized learning, and helps students revise effectively.	8. CHANNELS OF BEHAVIOR [CH] ONLINE Web application, mobile browser, social media, educational platforms. OFFLINE College classrooms, study groups, peer recommendations.
4. EMOTIONS BEFORE / AFTER [EM] Before: Confused, stressed, time-consuming. After: Clear, confident, organized, and motivated to learn.		

Core Value: EduGenie makes learning support faster, simpler, and more personalized by combining student-friendly explanations with Google Gemini's generative AI capabilities.
